Day: Girls In Future Technology</p> <p>Vision: <i>For each girl to leave this conference seeing and imagining the world in ways she couldn’t have the day before; envisioning herself as an innovative force leading the way.</i></p>

STEM Conference

The Kansas City chapters for ASPIRE and the Women of AT&T are thrilled to announce they are partnering with the Metropolitan Community College’s Business & Technology campus to host a Girls in STEM conference this fall.

The Experience

This event will be comprised of speakers, workshops, interactive booths, and engaging activities. Students will see and experience real AT&T equipment.

Community Involvement

Scientists, engineers, and technological specialists from various organizations around the metro area will be present to afford the girls an amazing opportunity learning about all types of jobs and careers available across many industries.

Employment, Internships, and Scholarships

Students will learn about employment opportunities, available scholarships, and internships.

Registration for students and volunteers

Anyone interested in attending or volunteering must register online. The registration link will be included on the invitations and event flyers.

A mentor empowers a person to see a possible future, and believe it can be obtained.
